Attn: Leo Ochs, Jr.
3299 Tamiami Trail East
Suite 202
Naples, FL 34112-5746

Dear Mr. Ochs,

As a follow up to our letter to Commissioner Henning dated June 12, 2014 and based on direction from the Commission at the June 24 meeting, I have included a list of five engineering/hydrogeologists firms for your consideration.

One of these firms will be engaged by Collier Resources to conduct groundwater modeling and water sampling around the Collier-Hogan well. Please review the list, select two firms and refer them to us so we can move forward to negotiate a scope and contract for the groundwater work. If you or your staff are unable to agree on two firms from the enclosed list please provide a list of companies from which we could select a firm to engage in this work.

We appreciate this opportunity to coordinate this effort with your staff and believe that through this process we will be able to bring closure to the issue surrounding our groundwater. If you or staff have any questions do not hesitate to contact me. We at Collier Resources look forward to your response.

Best Regards,

A handwritten signature in blue ink that reads "Tom Jones".
